Tagline: Empowering Efficiency with AI

## 1. Executive Summary

Lucent.AI is a Singapore-based digital consultancy focused on empowering organizations to improve efficiency through artificial intelligence. We combine automation, analytics, and AI-driven insights to help businesses identify bottlenecks, optimize performance, and accelerate digital transformation. Lucent.AI operates as a lean, high-impact venture providing AI readiness assessments, process diagnostics, and digital enablement solutions to mid-sized enterprises and service organizations across APAC.

## 2. Vision and Mission

**Vision:** To become a leading AI transformation partner for mid-sized organizations in Asia.

**Mission:** To deliver practical, affordable, and scalable AI-driven solutions that enhance productivity, decision-making, and customer experience.

## 3. Products and Services

- AI Readiness Assessment:** Interactive 15-question quiz evaluating AI adoption readiness.
- Lucent Efficiency Framework™:** Proprietary methodology mapping value-stream inefficiencies.
- Process Optimization & Automation Consulting:** Customized advisory integrating AI tools.
- Lucent Intelligence Dashboard (Planned):** Subscription-based analytics platform.

## 4. Market and Opportunity

Across Asia-Pacific, SMEs and mid-market enterprises are seeking ways to automate operations and adapt to the AI economy. Lucent.AI targets mid-sized enterprises, regional GBS centers, and consulting partners seeking AI enablement solutions. AI-related business services in APAC are projected to grow at 25% CAGR (2024–2028).

## 5. Operating Model

Lucent.AI operates as a remote-first digital consultancy leveraging partnerships and digital tools to deliver scalable services. Operations and support functions are outsourced via Sleek for accounting, compliance, and administration.

### Revenue Streams:

- Consulting Fees
- Digital Product Subscriptions
- Training & Workshops

## 6. Financial Projections (Indicative)

Year	Revenue (SGD)	Expenses (SGD)	Net Profit (SGD)	Remarks
2025	10,000	10,000	0	Initial setup and client acquisition
2026	12,500	12,500	0	Gradual expansion and marketing
2027	15,625	15,625	0	Scaling digital tools and regional reach

## 7. Future Roadmap

**Phase 1 (0–3 months):** Launch website and AI readiness assessment.

**Phase 2 (3–6 months):** Publish Lucent Briefs and Framework.

**Phase 3 (6–18 months):** Release Dashboard and corporate AI training modules.

## 8. Conclusion

Lucent.AI is positioned to bridge the gap between AI theory and practical business efficiency. With an asset-light model and scalable service structure, the company aims to deliver measurable results to mid-sized organizations across APAC.
